

Lisa M. Beaver, P.E., CFM, CBO

Bureau Veritas North America, LLC

Lisa Beaver is an accomplished Fire and Life Safety professional with more than 43 years of progressive leadership experience spanning both the public and private sectors. As Senior Director of Fire Protection and Loss Control for Bureau Veritas North America (BVNA), she leverages a distinguished career dedicated to protecting people, property, and critical infrastructure. Throughout her fire service career, Lisa advanced through the ranks from firefighter to Director of Emergency Services, gaining extensive experience in emergency response, fire prevention, hazardous materials management, and organizational leadership.

Drawing on her diverse background in fire operations, HazMat incident command, fire prevention, and fire protection engineering, Lisa has successfully led fire service organizations, collaborated with private industry, and served communities through her role as a regional Fire Board Director. She currently supports the California Department of Corrections and Rehabilitation and the Office of the State Fire Marshal as a liaison and member of the I-3 Committee, contributing to statewide fire and life safety initiatives.

Lisa is widely recognized as a solutions-oriented professional with exceptional expertise in all-hazards risk management, code development, and the interpretation and application of laws, codes, regulations, and standards governing engineering, life safety, building construction, hazardous materials, and utility infrastructure. Her experience spans a broad range of disciplines, including emergency operations, hazardous materials management, fire investigation, fire protection engineering, vegetation management, risk assessment, and loss control.

Throughout her career, Lisa has conducted hundreds of property inspections involving heavy industrial facilities, special-use occupancies, and public-sector properties. She has authored comprehensive property loss control reports, all-hazards risk assessments, fire and life safety analyses, and wildland fire hazard assessments. In addition to her technical expertise, Lisa is a respected instructor and public educator who has developed and delivered training programs, presentations, and educational materials on building codes, fire and life safety systems, emergency planning, and regulatory compliance for a wide range of professional and community audiences.
